*Please return to Church before September 16th.* Please feel free to write on a second sheet if more space is needed. JAM Will be held after Church Service on Sundays upstairs at 10:15AM. Please have children use the restroom before class. ***Snacks will be served during JAM.***

Name:

Parents/Guardians Names:

Date of Birth:

Date of Baptism:

I like: ( activities, snacks, songs, quiet, noisy...)

I don't like:

Important to me : ( to be heard, to be able to move, time to process information, opportunities to engage....)

Important for me: ( Needs, Allergies, Bathroom reminders, oppertunities for breaks )

Important to my family: ( What you hope your child gets out of JAM..)

---

## Sunday JAM

I would like to take a moment to introduce myself. I am Jamie Winklepleck. I will be the Lead for Sunday JAM. I have been working with

children in early education specifically, Special Education for over 15 years. I attended Southeast Tech for Early Childhood Development and find great joy in finding ways for children to engage in their learning through play and their own genuine curiosity. I plan to use my experience and education to create lessons that allow children to move and engage in their learning as we work our way through stories of the Bible.

I am so excited to get started with JAM this year, each class has fun interactive learning opportunities for all ages. From sensory and movement to music and stories! Studies show that children learn best through play and we will be doing just that! Sunday JAM is designed to allow children to play and engage in their learning through hands on activities that will reach each learning style. Watch the

bulletin for upcoming class notes. \* If you have interest in helping PLEASE also sign up!

## JAM \* Jesus and Me\*

### Purpose Statement

Build a Relationship with God  
Learn the stories of the Bible  
Build Relationships with the Hope Lutheran  
Community  
&  
Learn the Language of the Church  
Through hands on play, music, movement,  
stories and curiosity .

### Learning Styles

Research shows that **sensory play** builds nerve connections in the brain's pathways, which lead to the child's ability to complete more complex learning tasks. **Sensory play** supports language development, cognitive growth, fine and gross motor skills, problem solving skills, and social interaction.

**Kinesthetic learning** or **tactile learning** is a learning style in which learning takes place by the students carrying out physical activities, rather than listening to a lecture or watching demonstrations.

**The Linguistic Learner** The verbal style involves both the written and spoken word. **Naturalistic learner** is very much like a kinesthetic learner in many ways. They love to be able to touch, feel, hold, and do.

**Musical-Rhythmic learners** are natural born musicians. They tend to think in sounds and rhythmic patterns instead of words or pictures. **The Visual or Spatial Learner** If you use the visual style, you prefer using images, pictures, colors, and maps to organize information and communicate with others.
